

# AUTHENTICATE YOUR STAINING

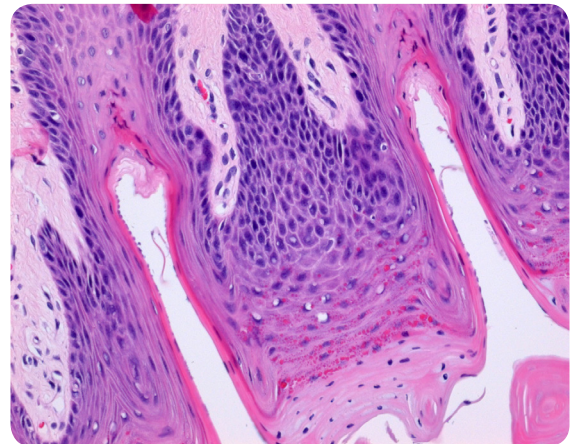

## ISOSLIDE<sup>®</sup> H&E control slides

Verify your standard hematoxylin and eosin staining patterns in histological applications with ISOSLIDE<sup>®</sup> H&E control slides. These slides enable the clear detection of nuclei, epithelia, muscle and connective tissue elements.

### Benefits

- High quality nuclear and cytoplasmic staining
- Used to determine batch-to-batch consistency of H&E staining
- Supports the QA process in Pathology
- CE-certified, IVD product

\*A box of slides contains 25 paraffin-embedded tissue specimens on glass slides, including 1 pre-stained control slide and 24 unstained slides.
